

On Windows Vista

1. Select "Start" and type **cmd** into the Search menu.

2. In the newly opened window, type **ipconfig /all** and press enter.

```
C:\Windows\system32\cmd.exe
Microsoft Windows [Version 6.0.6000]
Copyright (c) 2006 Microsoft Corporation. All rights reserved.

C:\Users\ResNET>ipconfig /all
```

3. Displayed will be one or more types of connections. The MAC address will be listed as the physical address.

"Ethernet Adapter Wireless Network Connection" = (Wireless Network Card)

"Ethernet Adapter Local Area Connection" = (Wired Network Card)
