# Sony PS3 Registration and Configuration
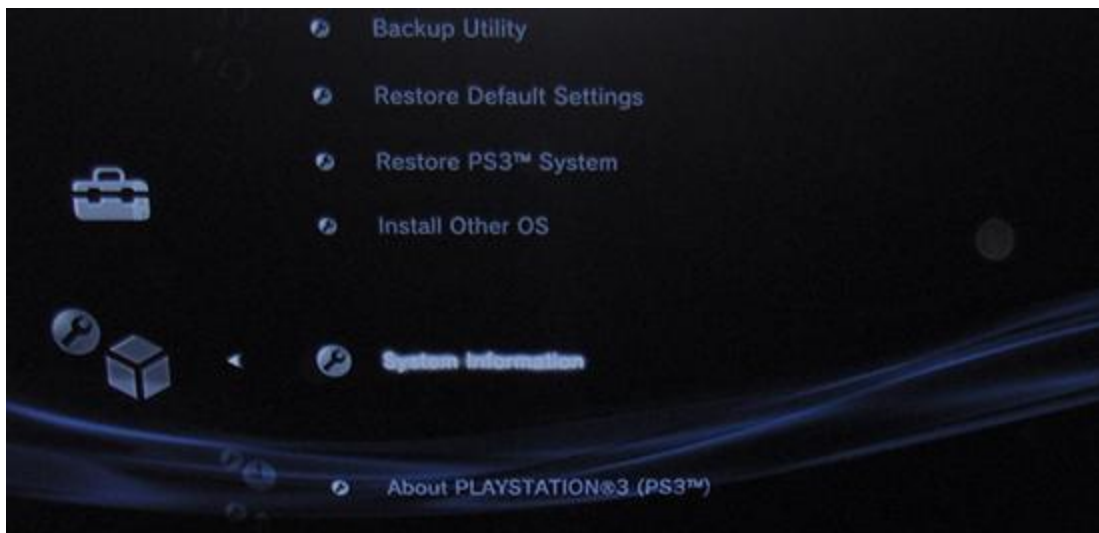

If the PS3 is the first device you are registering to a port, you can use the browser built into the PS3 to register at the website http://resreg.missouristate.edu. Otherwise, the following guide will provide you instructions with obtaining the MAC address of your PS3.

(At this time the PS3 is not compatible with the Missouri State wireless network. While the PS3 does support many modern wireless standards, it lacks 802.1X capabilities and does not support "WPA-Enterprise".)

1. Go to "Settings" on the Cross Media Bar (XMB) and select "System Settings."

2. Scroll down and select "System Information."

3. Your MAC Address will be the first item listed.

4. Once you have this MAC address, you may proceed to http://resreg.missouristate.edu and register your PS3.
